Abstract (en)  
The plug-in connector (1) has hermaphrodite contact support modules (7) arranged adjacent to each other in plug-in connector housing (3). The housing is made of two hermaphrodite housing half-shells (4) e.g. housing lower part. The half-shells possess respective upper sidewalls, where wall bases projects out from the upper sidewalls. Stop notch plates are arranged at the wall bases. Latching lugs are arranged at outer sides in openings of the upper sidewalls. A hermaphrodite contact of the housing is directed above resilient contact tongues running parallel to each other.

Abstract (de)  
Die Erfindung betrifft einen Hermaphroditischen Steckverbinder, umfassend ein Steckverbindergehäuse mit mindestens einem hermaphroditischen Kontakt, wobei das Steckverbindergehäuse aus zwei hermaphroditischen Gehäusehalbschalen besteht.
