Abstract (en)

[origin: WO2008029069A2] The present invention relates to a device to facilitate moving a curtain with loops along a pole, comprising at least two sliding elements (1) to be fixed to at least one loop, each element having a face (4) for fixing to the loop which is at least partly covered with an adhesive (8), the elements being kept a predefined distance apart by detachable and/or flexible holding means, at least before they are put on the loop.
