Abstract (en)  
[origin: WO2008025044A1] The invention relates to a switchgear, especially an automatic cut-out and/or a fault-current circuit breaker, said switchgear comprising a switch lever (1) for manually closing and/or opening switch contacts, and a release device for automatically separating the switch contacts, the switch lever (1) comprising an actuating extension (2). According to the invention, in order to prolong the service life of the switchgear, especially of the switch lever, a separate handle part (3) is arranged on the actuating extension (2).
