Abstract (en)

[origin: EP2060698A2] The mounting device comprises a mounting element (1) which is connected with a support structure. The mounting element is brought in a detachable contact, where a locking element is arranged at a covering element. The mounting element is formed in a plate shape with a threaded sleeve (3). A lock screw (9) is provided at the threaded sleeve which is fixed at a threaded bolt (6) in a defined axial position in a torque proof manner.
