Abstract (en)

[origin: WO2008031606A1] The present invention relates to a device having a hydroculture for purifying and moistening air in rooms, in particular in living rooms, a purification module for use in such a device, and a method of purifying and moistening air. The device comprises a plant container (2) and a substrate (4) situated therein made of a liquid or solid substance as base for at least one plant, at least one plant (6) which is rooted in the substrate (4), and a purification module which is arranged in the plant container (2).
