Abstract (en)  
[origin: WO2008029182A1] A material comprising an arrangement of resiliently deformable elements wherein the material comprises at least one outer element (51) with a hollow interior and at least one insert element (55), wherein the insert element (55) is arranged inside the hollow interior of the outer element (51). The elements may be elongate elements and the material may comprise a plurality of elements arranged to form a sheet.
