Abstract (en)
[origin: EP1903295A1] Device for camouflaging objects and persons, comprises a knitted or woven material, which is provided with a coating that exhibits or comprises a conductive polymer (intrinsically conductive polymer (ICP)). An independent claim is included for producing a camouflaging device comprising coating a fabric or interlaced yarn based on a synthetic polymer with a formulation based on ICP, like polyaniline, polypyrrole or polythiophene, by spraying with the help of a squeegee in an immersion bath.
