Abstract (en)
[origin: EP2065982A1] The element (10) has a ring and/or circumferential section (12) and a number of interlocking wings (17) curved from a sheet plane on a side (32) of a sheet. A central section (14) is surrounded by the ring and/or circumferential section, and is integrally attached with the ring and/or circumferential section by a number of spokes (16) such that each spoke steep in a circumferential direction of one of the wings. The central section includes a design of a circular disk, which is free from through holes. Each spoke and/or each wing includes a design of a circular ring cut-out.
