Abstract (en)

[origin: EP2067429A1] A laundry washing machine (10) comprising an user interface (12) and identification means (18,20,22) able to capture automatically data stored on a remotely accessible data media (24). The user interface (12) is in a working condition only when said remotely accessible data media (24) is within a predetermined distance from the appliance, so that the washing machine (10) can be used only by a person carrying such media (24).
