Abstract (en)

[origin: EP2067578A2] The stand (2) has a machine connector (1) for a machine tool (3) arranged on a guiding slide (4). A slide connector part (1a) with a clamping surface (5a) is arranged on the guiding slide, where the clamping surface coupleably associates a machine connector part (1b) with another clamping surface (5b) for the machine tool. The machine connector part has two bolts (6), which are mounted behind coupleably associated clamps (7a, 7b), where the clamp (7a) is moved in the slide connector part along the clamping surface (5a).
