Abstract (en)
[origin: EP2067684A2] The device has a set of transparent wall parts or transparent covering hood (3) produced from a polycarbonate plastic material containing dye. A seating surface (2) for passengers is supported on a carrying frame (1), and the covering hood is a transparent bubble pivotally supported on the frame between an open position and a closed position. The wall parts or the covering hood are thermoformed panels of a plastic material containing the dye pressed in a pressing operation in heated molds.
