Abstract (en)

[origin: WO2008011178A2] Compositions comprising omega-3 fatty acids, where the compositions are useful for treating intermittent claudication, preventing its further progression, and treating underlying conditions such as PAD that cause IC symptoms, methods of making such compositions, methods of using the compositions to treat intermittent claudication, and methods of using the compositions to treat any of the various underlying conditions that cause intermittent claudication.
