Abstract (en)
[origin: WO2008028483A1] This invention relates to a hose clamp (501) for clamping a hose (103) on a pipe (110) inserted into said hose, said hose clamp comprising a hose-surrounding and clamping means, where said hose clamp is adapted to be positioned around said hose for clamping said hose on said pipe where the hose clamp comprises pipe attachment means adapted to attach said hose clamp to said pipe prior to inserting said pipe into said hose and clamping said hose to said pipe (116). The invention also relates to a pipe adapted to be connected to a hose by inserting said pipe into said hose where the pipe further comprises clamp attachment means adapted to attach a hose clamp as described above prior to inserting said pipe into said hose and clamping said hose to said pipe. Further, the system relates to a system and method of connecting a hose and pipe.
