Abstract (en)

A sail unit, characterized in that it comprises two half-shells joined together, which define a double-hull bottom body, comprising a first hull and a second hull joined together by a substantially plane portion, a cockpit with the stem open, and a deck surface, raised with respect to said cockpit (11). The aforesaid bottom body is provided with a slit for the passage of a centreboard. The transom of the aforesaid sail unit is provided with means for fixing a helm. The aforesaid deck surface is provided with a mast step for resting and supporting a mast, as well as fixing points for the standing rigging of said mast.
