Abstract (en)
[origin: WO2008037438A1] The invention relates to a receptacle for an electronic device having a display screen on one flat side, wherein the receptacle has a reception area (12) for the device. Said reception area has a wall section (20) made for lying against the display screen of the device and has a flat insert (22) which has a soft surface on at least one flat side, and which lies against the wall section (20) when in the inserted position.
