Abstract (en)

[origin: WO2008043944A2] The invention relates to the use of at least one active ingredient derived from flax, capable of acting on the papillary dermis, for preparing a cosmetic and/or dermatopharmaceutical composition for use in combating skin ageing. The invention also relates to any cosmetic and/or dermatopharmaceutical composition with anti-ageing action containing at least one substance capable of acting on the papillary dermis.
