Abstract (en)
[origin: WO2008051163A1] A dental system and members of said system, for determining a suitable angle for a dental superstructure with a non-linear screw-channel are provided. This system comprises a bore angle member, comprising a head portion (41, 61), and a bore angle connector (51, 71) having a bottom portion (52, 72) for connection to said head portion of said bore angle member, whereby said bore angle member and said bore angle connector are pivotably connected to each other. A distance member (80) is also provided.
