Abstract (en)  
[origin: WO2008046984A1] The invention relates to an insulating element (22) for the construction of a refrigerated cabinet, which comprises a number of insulating walls (28, 29, 30) articulated together and also an air-ducting pipe section. The invention also relates to a refrigerated cabinet including one such insulating element and an air-cooling unit including two elements which are interconnected by means of at least partially flexible pipes.
