Abstract (en)

[origin: EP2077355A1] The machine (10) has a platform (12) provided with a rapid fixation unit e.g. pin fixation unit, and a lifting arm (18) for lifting a drilling tool (20). The lifting arm includes another rapid fixation unit cooperating with the former fixation unit. A hydraulic assembly (15) includes supplying and circulating units for supplying and circulating fluid in flexible conduits and a flexible tube. The tool, the platform, the arm and the assembly have dimensions for permitting each of the tool, the platform, the arm and the assembly to be placed in a container having standard dimensions.
