Abstract (en)  
[origin: EP2078541A2] A housing unit includes a stereo speaker. The housing unit includes a docking station. The docking station is adapted to operatively receive a handheld digital electronic audio/video device. The housing unit also includes controls for the intensity of the volume of the speaker. The housing unit lastly includes a plurality of ports. The ports include a USB port. The USB port allows for an operative connection between the housing unit and any one of a plurality of exercise machines.
