Abstract (en)

[origin: EP2078570A1] The working cabin (100) has a working chamber (103) for temporary receiving of material to be treated. A transfer opening (104) is provided, through which the working chamber is connected with the environment (120) of the working cabin. A transfer cabin is provided for the placement and the recovery of the material to be treated or for access into the working chamber. A printer transfer opening is provided. The printed material output (108) of a printer (105) is connected with the working chamber. The printer is arranged in the periphery of the working chamber.
