Abstract (en)

[origin: EP2078917A2] The locking-system has multiple strikers (3a,3b), multiple triggers (48,49), a control device and a striking pin (2) which is assigned to the strikers. The control device of a control element (54) and stop levers (7,8) are arranged below the striking pin. The control element is arranged at the lower side of the striking pin. The stop levers are actuated by a trigger bar (7), where an intermediate lever (18) is actuated by the triggers. The diagonally opposing control plates are arranged at the control element or at the stop levers for deflecting the striker pin.
