Abstract (en)  
[origin: FR2907805A1] The screen has a net made of textile threads by cast-off stitch knitting on a warp or Rachel machine. The net includes sectional frames, where an opening rate of the net defined as the ratio of a surface (S'1) of square of rectangular shaped orifices on the total surface of the net is greater than 50 percentage. The net defines the orifices obtained by the cast-off stitch knitting with the implementation of sectional frame threads.
