Abstract (en)

[origin: WO2008047165A1] A tamper evident lid assembly (10) for a mouth of a container (12) comprises a lid (15) to close the mouth of the container, and a strip (14) preventing removal of the lid. Removal or disconnection of the strip (14) enables the lid (15) to be removed. The strip (14) defines at one end a block (20) with an aperture (24), and also defines serrated teeth (22) along at least part of its length, such that after removing the strip from the lid assembly it may be used as a cable tie.
