Abstract (en)  
[origin: DE202006016188U1] The plug lock has a lock part (10) and a plug-in part (12). The lock part has a lateral end (20) to receive the plug-in part and a belt having a lateral end (22). The insertion direction (36) points from the lateral end of the lock part toward a belt-lateral end of the lock part. A rest mechanism can be manually separated after engaging between the plug-in part and the lock part. In the lock part a second manual rest mechanism (46) is provided with the second rest mechanism provided in a locked condition and a movement of the plug-in part placed into the lock part relative to the lock part.
