Abstract (en)
[origin: WO2008046689A1] The invention relates to a system comprising a hand-held machine tool (12), particularly a pistol-shaped hand-held machine tool (12), at least one first additional unit (14), and a coupling mechanism (16) that is used for coupling the first additional unit (14) and the hand-held machine tool (12). Said system comprises at least one other additional unit (18) which is to be coupled to the hand-held machine tool (12) by means of the coupling mechanism (16).
