Abstract (en)
[origin: WO2008058562A1] A stationary apparatus for levitating, charging and for data communication with a mobile apparatus. A mobile apparatus to be levitated, charged and brought in data communication with a stationary apparatus. A system including a stationary levitation apparatus and a mobile apparatus to be levitated. A method for remotely capturing images at various view angles. A method for signaling state changes or events in a mobile apparatus to a user over relatively long distances.
