Abstract (en)

[origin: EP2084987A1] The brush (1) has a brush section (2) with a base body (5), and bristles (6, 7), which are stuck out from the base body and apply cosmetics. A part of the bristle of the bristles (6) is formed such that the bristles (6) are individually and firmly connected with the base body, and consists of a plastic material as the base body. Another part of the bristle of the bristles (7) is formed such that the bristles (7) are connected with the body as the bristles (6) in a force-fit or form-fit manner. The bristles (7) are softer than the bristles (6). The bristles consist of plastic material.
