Abstract (en)

[origin: EP2085192A2] The assembly layout is broadly built on a tool box and from four frames (20). The toolbox is built from two box bodies opened and closed with the cachets. The corner edge of the box bodies build a lower connecting surface. The corner edges have a flat lower connecting surface for receiving the lower connecting surface. Both the front ends are provided with an upper button hole with a taper. The connecting surface is provided with a safety chamfers on the sides, which extend in the box body.
