Abstract (en)  
[origin: WO2008065298A1] This support for roaming electronic apparatus is intended to constitute a part of a motor vehicle dashboard. It comprises a base (11) intended to be secured to the dashboard and a stand (12) for receiving the apparatus delimiting at least one housing (L) for receiving the apparatus, the stand (12) being mounted so as to be angularly displaceable with respect to the base between a first position of closure of the support and at least one second angular position rendering said housing accessible.
