Abstract (en)

[origin: EP2090341A1] The arrangement has two longitudinal sided walls (10, 11) and front sided walls (12, 13), which surround a rectangular playing field space, where the walls are constructed in a module type. The walls consist of band elements (16) in form of a board, plate or panels, and dual-T-clamping pillars (17). A door (14) is integrated in the front sided walls. The pillars are provided with retainers on both sides, into which the ends of the band elements are inserted. The band elements are fixed at the pillars in a clamping manner using a fixing unit.
