Abstract (en)
The object of the present invention is a single-block structure (1) of a suction hood, comprising a support frame (1) suitable for supporting and seating the filtering unit (2), the suction unit (3), the lighting unit (5) and the control means (4.1) of said hood. The suction unit (3) is placed inside said support frame (1) whereas said filtering unit (2) consists of one or more filtering panels (2) constituting one or more walls of said support frame (1).
