Abstract (en)

[origin: WO2008065071A1] Method to build a multi-functional sports structure (10), in which at least the following steps are provided: - a first step in which at least a playing field (11) and one or more stands (12) are built, the stands (12) being standardized and disposed at the side of or around the playing field (11); and - a second step in which at least in the space defined below and inside the bulk of the stands (12) one or more functional units (13) are selectively assembled, built completely or partly in a pre-defined or pre-definable sequence, using at least partly pre-fabricated and/or pre-assembled constructional elements (20).
