Abstract (en)
[origin: EP2092853A2] The profiled rail (1) has parallel contoured grooves (6, 7) extending along the profiled rail and provided with a pass contour that is undercut in cross section. A catch unit arranged at the panels is locked to the pass contour. The contoured grooves are provided at opposite ends of the profiled rail. Wall sections (11, 12) define a slot extending along the profiled rail, and a hanging unit (2) is provided behind the slot such that a console (20) is inserted into the slot and hung by the hanging unit.
