Abstract (en)

The profile (50) has a hollow base profile (51) and an illuminating unit profile (52) including a set of LEDs, and inserted into the base profile by a locking connection. A concave support (51a) is formed at an opposing inner side of the base profile and a convex support is formed at the illuminating unit profile, which corresponds to the concave support of the base profile. The concave support and/or the convex support are viewed in a transversal direction, following a specific radius. The concave support and/or the convex support have curved surfaces and/or longitudinal bars.

Abstract (de)

Ein Leuchtenprofil (10, 50, 60) umfasst ein hohles Grundprofil (11, 21, 31, 51, 61) und ein in dem Grundprofil mittels einer Rastverbindung (15) einsetzbares Leuchtmittelprofil (12, 42, 52, 62). An gegenüberliegenden Innenseiten des Grundprofils sind konkave Auflager (11a, 21 a, 31 a, 51 a, 61a) und an dem Leuchtmittelprofil konvexe Auflager (12a, 42a) ausgebildet, die mit den konkaven Auflagern des Grundprofils korrespondieren, wobei die konkaven Auflager (11a, 21a, 31a, 51a, 61a) und/oder die konvexen Auflager (12a, 42a) - in Querschnittsrichtung gesehen - einem Radius (R) folgen.
