Abstract (en)
[origin: WO2008077793A1] The invention relates to a process for producing a fiberboard, in which cellulosic fibers on a vegetable material are provided, in which cellulosic fibers from a used material are provided, in which a binder is added, in which a fiber web is formed and in which the fiber web is pressed to a board. This process solves the technical problem, in an economic manner, of providing a fiberboard which satisfies the requirements typically made. The invention likewise relates to a fiberboard.
