Abstract (en)

[origin: WO2008061556A2] The invention relates to compositions containing or consisting of a reaction product obtained from a reaction mixture of an aminosilane of formula (I), a mecaptosilane of formula (II) and an epoxysilane of formula (III). Said compositions are suitable as bonding agents, especially in the form of primers. The are highly adhesive and especially suitable for low-temperature applications and especially for sticking glass together.
