Abstract (en)
[origin: EP2095962A1] An ink cartridge includes a frame and a movable member. At least the frame defines an ink chamber therein, and the ink chamber is configured to store ink therein. The movable member is configured to move within the ink chamber in a first direction and a second direction opposite the first direction. The movable member includes a plurality of projections, and each of the plurality of projections extend from a surface of the movable member in one of the first direction and the second direction.
