Abstract (en)

[origin: EP2096223A2] The device has a supporting plate (5) for fitting and alignment of the device on an armor. A guide pipe (7) is connected with the supporting plate. Thread elements i.e. inner thread, are provided at a lower end (11) of the guide pipe for screwing a tensioning rod (1) provided with a thread section. The plate and the pipe are manufactured from plastic as a single piece. A nut made of metal is inserted or fitted into the guide pipe. An upper end (9) of the guide pipe is closed by a break-through or detachable cover (13).
