Abstract (en)
[origin: EP2096229A1] The spacer element (1) has a cover plate that is attached at narrow sides of a mounting plate element in each case, which corresponds to a pressure disk of a fastening part (10). The grill shaped structure is attached on a fastening part with a pressure disk. A nose-type element is arranged at a lower surface of a cover plate. Independent claims are included for the following: (1) a clip for fixing a grill shaped structure at a counterpart; and (2) an attachment system for the attachment of a grill shaped structure.
