Abstract (en)  
[origin: EP2096235A1] The frame has two vertical connection pins (21) inserted into a complementary connection access (22) at a lower side of a positioning frame (2) or a console front-end railing (1). The recess to a coupling recess (23) is enlarged at the lower side of the frame or the console front-end railing. The coupling recess is arranged at a distance from a large part of an inner surface of the recess to the inserted connection pins. A spacer sleeve (41) is inserted into a formed cavity, and a console (4) is fastened to the sleeve. A horizontal support (3) is fastened as a front head to the frame.
