Abstract (en)  
[origin: EP2096721A1] The system (10) has a plug with the electrical conducting contact elements (32a,32b,32c,38a,38b,38c) and a locking device (22a,22b). A printed circuit board (14) has electrically conducting complementary contact strips (40a,40b,40c) and a complementary locking device (36a,36b). The plug and the printed circuit board are arranged in one another, such that the locking device and the complementary locking device are locked with each other.
