Abstract (en)

The present invention relates to bleaching composition for keratin fibres, especially human hair, comprising at least one compound with bleaching and/or highlighting effect and a calcium salt. Further object of the present invention is the use of at least one calcium salt in a bleaching and/or highlighting composition for keratin fibres, especially for human hair, comprising at least one compound with bleaching and/or highlighting effect for preventing temperature increase going above 40 °C, preferably above 45 °C and more preferably above 50 °C in a period of at least 60 min after mixing water free bleaching and/or highlighting composition and oxidizing lotion.
