Abstract (en)

[origin: EP2098733A2] The apparatus (1) is in particular a motorized electric fan (1) and comprises a rigid support housing (2, 3) which defines internally a working chamber (5), an electric motor (7), in particular a brushless motor (7), arranged inside the housing (2, 3) and connected to the latter by vibration-damping means (11), for actuating an operating device which extends inside the working chamber (5), and power supply and control circuit means (17, 18) associated with and connected to the motor (7) and mounted, together with an associated heat dissipator (20), on at least one support card or board (16) which is fixed to the support housing (2, 3).
