Abstract (en)  
[origin: EP2099100A1] The connector has a retainer (6) for mechanically connecting a plug with a submerged motor, where an electrical connection cable (1) is guided through the retainer. A casing-shaped component (13) is provided adjacent to the retainer. An inner ring seal (19) is provided for sealing the casing-shaped component in relation to the connection cable. Outer seals e.g. O-ring (15) and elastic, electrically insulating body (23), are provided for sealing the casing-shaped component in relation to a plug receptacle at the submerged motor side.
