Abstract (en)  
[origin: WO2008067985A1] The invention relates to a sensor transponder unit having at least one sensor (S) and at least one transponder (T). In line with the invention, the sensor transponder unit is distinguished in that the transponder (T) and the sensor (S) are in the form of physically separate components. The invention also relates to a method for operating the sensor transponder unit and to use of the sensor transponder unit in a logistics system.
