Abstract (en)

[origin: EP2101021A1] The panel (12) has supporting units (32) connected to a shell (14) by connecting units (34). The supporting units have a displacement axis fixed with respect to the panel or to the shell. Elements are displaced along the displacement axis, and a traction unit (43) exerts a traction force on each element for displacing along the displacement axis. Fixed units are fixed to the shell or to the panel and to the elements for exerting urging force on the shell or on the panel under the effect of the traction force.
