Abstract (en)
[origin: WO2008077562A1] A net for cultivating shellfish, the net comprising first and second parts (311A, 311B), each part having at least two open mouthed net portions (20,366). The net is pivotable into and out of a closed state in which the respective mouth of the net portions of the first part are substantially- facing and in register with the respective mouth of a respective net portions of the second part to form a plurality of net pockets (366). The net is suitable for use in a shellfish cultivation system comprising a mooring line (152), wherein a plurality of nets are coupled to the mooring line.
