Abstract (en)

[origin: WO2008085113A1] The invention relates to an arrangement of an underwear intended for male users to be worn under a men's pants, gym shorts or similar garments. The underwear (1) has a part designed to form a pouch (2) for the scrotum, which pouch extends into an upper part with an opening (5) for the penis, and which together with the lower part is designed to form a unit, the upper part of which being attached to an elastic waistband (7; 9). The invention is characterized in that the upper part comprises two partly overlapping side straps (3, 4) extending from the pouch, the upper ends of said straps likewise being partly overlapping and attached to said waistband (7; 9).
