Abstract (en)
[origin: US2009241752A1] To provide a capo tasto for fixing on a neck of a stringed musical instrument, comprising a string contact device, a tensioning band for fixing the string contact device on the neck of the stringed musical instrument and a fixing device for fixing the tensioning band on the string contact device, which is universally usable and easy to operate, it is proposed that there be disposed on the string contact device at least one clip, by means of which the capo tasto may be hooked on the neck of the stringed musical instrument.
